

**CITY OF ALBANY, OREGON
FINANCE DEPARTMENT**

**Water Treatment Facility Wetwell and Sedimentation Basin Cleanout
Invitation to Bid - Addendum 2**

October 2, 2023

The purpose of this addendum is to modify the ITB documents only to the extent indicated herein. All other areas not changed or otherwise modified by other addenda, shall remain in full force and effect. This addendum is hereby made an integral part of the original Project Documents.

The following revisions have been made to the ITB, Section 2.1, added:

- G City will provide a permanently fixed davit arm foot and davit arm, harness and fall arrest at AM Raw Water Pump Station Wetwells. City will provide buildable davit arm, harness, and fall arrest at Vine Street Raw Water Wetwell. The AM Sedimentation Basin does not require retrieval. City maintains davit arms and harnesses through annual inspection by a third party. Contractor may inspect City equipment and request inspection certificates and reports prior to use.**

- H Contractor will be responsible for performing and completing the required services meeting safety requirements in compliance with OSHA. Should Contractor prefer to use Contractor's safety harness, then Contractor should provide City with a valid certificate reflecting inspection by a qualified third-party inspection service within the past 12 months with their bid response or prior to contract award.**
