Business:

More information about the newsletter was shared. We hope to have a final rough draft at the next meeting. These newsletters will go out in October. A mailing list is being developed.

Wanda shared the information about the new mentoring program AFD just started. There are seven kids connected with mentors at this point. They do some events has a group and each mentor is committed to spending time with their child twice a month.

Ben, Dave, Kirsten, Mike and Wanda agreed to check their schedules and see about doing a presentation at CSC on August 3rd at 9:00am.

George shared a resource sheet he is working on for outlying departments to use if they have fires that are set by juveniles. It doesn't happen as often in those areas and so they are not always sure what to do. This sheet would give them some direction and resources they could access.

Case Review

There were several cases discussed.
